All kind of Fresh and Cured Meats and Fresh Fish  
Cured Meat in first-class style. A full line of Lard.

Pork Sausage fresh daily.

Your Satisfaction means our Success

## LOCAL NEWS

Saturday night our local constable was inquiring near the Community Billiard Hall if any body knew of houses of prostitution near the mines, and then made the remark that the only man in town who knew anything about it was Mr Peters. Is it surprising that Mr Sinclair in his address to the Jury in the Gallagher case called the police by some peculiar names. We are inclined to believe the remark made to us this week that some policemen could not track an elephant in six inches of snow. If the Constable had gone near the mines and inquired there, he would have found out how people have been annoyed there lately by these night prowlers. We say no more about it for the time being, but we intend to keep this up, as the public is entitled to some protection.

As far as the individual who challenged us two weeks ago, is concerned, he has disappeared and his bluffing proved to be a boomerang and he ran himself out.

## Open Letter

Editor Carbon News.

Dear Sir:

We are very pleased with the stand your paper has taken in regard to the "Joy Houses" around the mines. The last one disappeared on Sunday night. Those who pretend that there was no such things around the mines must have been wilfully blind, as we were almost knocked out of our bed on Sunday morning by a fine car and 5 men backing in on our shack.

MRS FRED IVES.

MRS RICE.

MRS DYLO.

Mr and Mrs Fred Ives wish to thank Dr and Mrs McFarlane for their kind attention to their little son George through his serious illness, also Mr T. and W. Hummell Mrs Rice, Mrs Conlin, Mr and Mrs Harry Downe, Mr and Mrs Dylo and Miss Foster and all other callers from Carbon. Little George has so many friends and we thank them all and are pleased to say he is getting on fine.

MRS FRED IVES

Mr and Mrs Joseph Thompson of High River, spent a few days in Carbon with Mrs Alex MacKay, their daughter.

Miss Black returned to her home in Edmonton Tuesday.

Mr F. Ewing, Secy Treas. of the Municipality of Keoma, was visiting friends in Carbon Sunday.

On Sunday, June 4th Rockyford Ball team beat Hussar 8-11 in a nine inning game.

Mr Joe Worth motored to Calgary Saturday on business.

Over thirty Carbonites motored to Pine Lake Sunday, where they enjoyed themselves fishing and boating. Among them were: Mr and Mrs Letourneau, Mr and Mrs Greenup, Mr and Mrs Francis, Mr and Mrs Molon, Mr and Mrs Ramsey, Mr and Mrs Nash, Mr and Mrs Ready, Mr and Mrs Catigione.

## ROYAL YEAST CAKES

Product of Canada

It was known many years ago that yeast is an excellent thing for the many ills that result from disordered stomach or run down blood condition. Lately eminent scientists have been investigating the matter thoroughly and their conclusions point to the fact that the beneficial effect of yeast has not been overrated. The yeast treatment is very simple and economical - and altogether harmless.

Before each meal eat a Royal Yeast Cake, or take a cake dissolved in water or fruit juices. The scientific investigators say that the curative elements in Royal Yeast are the vitamins and nuclein which it contains. It is certainly well worth a fair trial by those who suffer from any of the ailments mentioned above.

Send name and address for free booklet "Royal Yeast Cakes for Better Health."

E.W. GILLET COMPANY LIMITED

### Remodel The Constitution

Just as the spur of necessity forced governments all over the world to increase taxation in order to raise enormous war revenues and to meet interest charges of ever mounting war debts, so necessity now demands the inauguration of every safe and business-like reform calculated to bring about a reduction in national expenditures and thereby make possible a lowering of taxation. High taxation is today throttling all industrial and commercial enterprise and is operating as a clog on the wheels of business, hampering the provision of adequate and remunerative employment for tens of thousands of people, and retarding a return to pre-war prosperity.

There is opportunity for the inauguration of economies in public administration in Canada through a revision, a remodelling, of some of the provisions of the national constitution as it governs the relations between the Federal Government and the several Provincial Governments.

Canadian taxpayers today are called upon to bear the expense of nine Government departments of agriculture, one in each province and one for the Dominion as a whole. There is inevitably an enormous amount of overlapping in effort and waste in expenditure. Inasmuch as agricultural conditions and needs vary greatly throughout the Dominion it is probably necessary to have Provincial departments devoted to the encouragement of agriculture, but with each Province looking after its own requirements in this respect, where does the need exist for a Dominion department? It could very well be done away with, a substantial saving effected, and no outstanding loss to the industry of agriculture result. Yet the Canadian constitution gives jurisdiction to both Federal and Provincial Governments concerning agriculture.

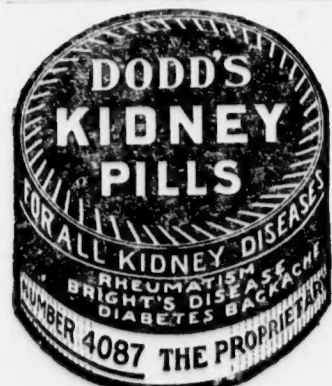

Then there is over-lapping in connection with such subjects as insurance, with the result that we find departments at Ottawa and in the Provincial capitals, fully staffed, compiling insurance data and statistics, enforcing inspections of one kind and another, collecting fees from companies, which, of course, the people in the final analysis have to pay, while Parliament on the one hand and Provincial Legislatures on the other are busy enacting new laws and regulations governing the conduct of the business of insurance.

Much the same thing is true in connection with laws concerning the incorporation, management, taxation, etc., of Companies during business throughout the Dominion. There is a constant conflict in legislation and authority, and the courts are full of actions and appeals to decide where the authority of the Dominion ends and that of the Provinces begins, or vice versa. Constant recourse is had to the Privy Council in London to decide these knotty questions, for all of which the people of Canada ultimately pay.

Step by step Provinces have in recent years encroached upon what was formerly regarded as the exclusive right of the Federal Parliament to legislate in the matter of Banks and banking. Farm Loan Boards are essentially a form of banking, taking the money of people on deposit in the form of bonds and debentures and re-lending the proceeds, while in Ontario and Manitoba the Provincial Governments have actually established Provincial savings banks. Even admitting that such action has been forced on the Provinces through the failure of the Federal Parliament to revise the Bank Act in order to make it meet conditions in these Provinces, rather than leave it as it is, chiefly of benefit to manufacturing industry and the larger concerns of finance and commerce, the fact remains that we are heading for further duplication and waste in effort, with consequent increased expenditure.

The Canadian constitution needs clarifying. There is need for a sharper, more clear-cut definition of the powers of each of our legislative bodies, Federal and Provincial. There should be reduction to an absolute minimum of those subjects in regard to which both have jurisdiction. Many subjects should either be left absolutely and solely to the Dominion, or in like manner to the Provinces. Even in the matter of divorce we have Provincial courts granting them, and Parliament—whose time should really not be taken up with such matters—engaged in the same work.

We would like to see Premier Mackenzie King take firm hold of this question of a revision of the constitution and call a conference of Provincial Premiers and Attorneys General to meet with the Federal ministers in a well defined and sincere attempt to simplify the constitution and evolve one more in keeping with the present-day conditions and the requirements of the Dominion. Aside from large savings in administration costs which could unquestionably be effected, there is the even more important fact that less confusion and litigation would exist, and greater efficiency in public service result.

**Remarkable Generosity**

Sandy, the farmer, had been staying with some friends for about a month, and while he and his host were out for a walk one day they called at a wayside inn for a drink. As his host was about to pay for it Sandy stopped him.

"Na, na," he said. "I'll not allow it. Ye've been keeping me in everything at yer hoose for a month, and ye've treated me to th' theatres, and cab fares, and paid for all the drinks. I tell ye, I'll hae na mair of it. We'll toss for this one."

Minard's Liniment used by Physicians

### The Largest Coin

Large Coins Were Commonly Used in Sweden in Olden Days

Probably the largest coin in the world is one belonging to Farren Zerbe, internationally famous expert on rare coins. It is a piece of stamped copper plate 10 inches square and weighs six and one-half pounds. It has a value of "4 daler" (the daler was a coin of varying value) stamped on it, and the date 1730. Such coins were commonly used in Sweden for some time during and after the wars of Charles XII. It is a part of a collection of more than 30,000 specimens, representing mediums of exchange of all countries and periods from the earliest times to the present day. The total face, or original exchange, value of the collection is counted in millions, but no present value has ever been placed on it. Many of the coins are, of course, rare and of much greater value than their face.—East and West.

### Alberta's Rapid Growth

Statistics just compiled show that the urban population of the area included in Alberta has grown in twenty years from 18,533 to 222,904, an average increase of about 10,000 per year. During the same year the rural population has been increasing at an average rate of 15,500 per year.

### PALE, WEAK GIRLS AND DELICATE WOMEN

Can Find New Health by Enriching Their Blood Supply

Nature intended every girl and every woman to be happy, active and healthy. Yet too many of them find their lives saddened by suffering—nearly always because their blood is to blame. All those unhappy girls and women with colorless cheeks, dull skins, and sunken lusterless eyes, are in this condition because they have not enough red blood in their veins to keep them well and in the charm of health. They suffer from depressing weariness and periodical headaches. Dark lines form under their eyes, their heart palpitates violently after the slightest exertion, and they are often attacked with fainting spells. These are only a few of the miseries of bloodlessness. When the blood becomes thin and watery it can be enriched through the use of Dr. Williams' Pink Pills and the troubles that come from poor blood disappear. In almost every neighborhood you will find some formerly ailing woman, or pale breathless girl who has a good word to say for this medicine. Among them there is Miss Laura Monaghan, Campbellton, P.E.I., who says:—"Before using Dr. Williams' Pink Pills I was in a badly run down condition. I was pale, thin and scarcely able to go about. The least exertion made my heart palpitate so violently that I actually was afraid one of those spells might carry me off. Often my nights were sleepless, and as the treatment I was taking did not help me I was almost in despair. Finally a friend advised the use of Dr. Williams' Pink Pills, and in the course of a few weeks after beginning this treatment there was a decided improvement in my condition. I continued using the pills, and am now enjoying good health. I am glad to give you my experience in the hope that some other sufferer may find the way to better health."

These pills are sold by all medicine dealers or may be had by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

A lighthouse on the Japanese coast is constructed of bamboo. Bamboo was used because it has great power of resisting salt water, and does not rot like ordinary wood.

Ask for Minard's and take no other

More than 5,000,000 eggs are required for the daily larder of Greater New York.

### Proven Value

When you take PERU-NA for Indigestion, Disordered Stomach, Nervousness, or a general run-down condition of the system, you are doing what hundreds of thousands of people have done before you. It is a half century old, and has won an honored place in homes throughout the length and breadth of the North American continent as the ideal tonic and blood purifier.

It has proved its value; its prompt use has beaten off many a serious illness; and today it is more widely used than ever before because it is the reliable remedy for everyday ills. **Sold everywhere, because it is known, used and called for everywhere.**

PERU-NA COMPANY  
344 St. Paul St., Montreal

## RED ROSE TEA

"is good tea"

27 Years the Same Good Tea--and Always in the Sealed Package

### The Killjoy

Wife (at the theatre).—Oh, John, did you notice if that match you threw into the wastepaper basket before we left home was really extinguished?—Life.

### DO YOU FEEL LIKE THIS WHEN YOU WAKEN?

Do you feel blue, sickly, heavy, too tired to get up? If so, it's probably your liver which is slow, and needs to be toned and stimulated by Dr. Hamilton's Pills. It's a wonderful change Dr. Hamilton's Pills will make in a few days. They relieve the system of poisonous wastes, they aid the stomach, improve digestion, increase your appetite. You'll feel like new all over after using this health bringing medicine. Thousands have proved it. Sold everywhere in 25c boxes, or The Catarthozone Co., Montreal.

### Wild Animal Sanctuary

Mr. Patrick Establishes Park for Wild Animals at Yorkton

At Yorkton, Sask., J. A. M. Patrick, K.C., has established at his own expense, and as a means of affording him pleasure, a sanctuary for wild animals. He has succeeded in obtaining a number of specimens of our rapidly disappearing wild life, among them being antelope and white-tailed deer. He has recently purchased four pure white deer from Grand Rapids, Mich. These deer are exceedingly rare, only seventeen being known to be in existence on the continent. Mr. Patrick is having the usual difficulties in protecting his sanctuary, but is continuing the good work.

### Railway Mileage in Saskatchewan

The total railway mileage in the province of Saskatchewan is now 6,269, of which the Canadian Pacific operates 2,777 miles. The aggregate mileage in 1905 was only 1,525; in 1910, 3,259; and in 1915, 6,102.

### Could Hardly Live for Asthma

writes one man who after years of suffering has found complete relief through Dr. J. D. Kellogg's Asthma Remedy. Now he knows how needless has been his suffering. This matchless remedy gives sure help to all afflicted with asthma. Inhaled as smoke or vapor it brings the help so long needed. Every dealer has it or can get it for you from his wholesaler.

### Plan Radio Station At Norway House

For Reporting Fires and Broadcasting Reliable Weather Reports

If present plans mature, two radio stations will be installed this season for the use of the forest aeroplane patrols at Norway House and Victoria Beach, according to Major B. D. Hobbs, of Winnipeg station of the Canadian Air Board. The outfits will be able to transmit by key only and to receive key and telephone calls. The advantages of the methods will be that speedy communication may be made between bases in the matter of reporting fires to the district inspector of forestry at Winnipeg, so that help may be sent to the scene of conflagration as soon as possible, and for the broadcasting of reliable weather reports from the north country. The flying boats will also be equipped with wireless outfits.

### Production of Gold Increased

The value of lode gold produced in British Columbia in 1921 was \$2,804,154, as compared with \$2,481,392 in 1920, an increase of \$322,762, or about 13 per cent., according to a report of the Department of Mines. The production of gold in British Columbia during each of the last four years has only been about one-half of the annual output immediately preceding the war. However, judging from developments now in progress it would seem that in a short time the annual production of gold in the province should increase considerably.

Keep Minard's Liniment in the house

### For a White Australia

Policy of Australia for White Population Favored in England

The Imperial British Government, as a matter of Empire concern, is favorably inclined toward Australia's "White Australia" policy reports Sir James Connolly, Agent-General for West Australia in London.

Sir James states that the policy would help close the back door to the Australian continent, and especially to the unpeopled semi-tropical territories of Northern Australia.

It is possible, Sir James said, that the Imperial Government would aid in the scheme of building railways and roads and equipping 2,000 farms in the territory for occupation by emigrants from British lands.

### When Overtaken by Nausea Try This Simple Remedy

When you don't know whether it's going to stay down or come up, when you look like thirty cents, and feel even worse, what you need is twenty drops of Nerviline, in sweetened water. Almost like magic is the change you experience. Those feelings of vomiting disappear. Thousands of homes rely on Nerviline in case of sour stomach, gas-bloating, nausea and upset stomach conditions. Get it to-day, large 35c bottles sold by all Dealers.

"I have a new job in the bank, now," announced Tom Withers. "I'm a draft clerk."

"Draft clerk?" asked Edgar. "What does a draft clerk do?"

"I open and close the door."

**Simple and Sure.**—Dr. Thomas' Electric Oil is so simple in application that a child can understand the instructions. Used as a liniment the only direction is to rub, and when used as a dressing to apply. The directions are so plain and unmistakable that they are readily understood by young or old.

### Automobiles Indicate Prosperity

If the demand for automobiles is an indication of general prosperity, as is usually supposed, Canada must be in an enviable position. Aside from the large number of automobiles manufactured in Canada there have been imported into this country in the last five years passenger automobiles to the value of \$45,749,115.

### STOMACH TROUBLE? INDIGESTION?

Here's Good News for You

Lindsay, Ont.—"Dr. Pierce's Golden Medical Discovery is the best medicine I have ever taken for stomach trouble. For many years I suffered with gastric stomach trouble and nervous indigestion. Would be so bad at times that it was necessary for me to be in bed two or three days at a time. I have doctored and taken many different medicines with little relief. Just recently I began taking Golden Medical Discovery and it has given more relief than all the other medicines I have ever taken. My stomach does not bother me and I have not had any indigestion since taking this medicine. I can highly recommend the 'Discovery' to others who suffer with stomach trouble."—Mrs. Geo. Wellington, 6 John St. All druggists. Liquid or tablets.

### Mrs. Fawcett Gives Advice to Mothers

St. Catharines, Ont.—"I took Dr. Pierce's Favorite Prescription during expectancy when I felt especially in need of a tonic and it benefited me greatly. I always take pleasure in recommending this 'Prescription' to young mothers because I know it will not fail to help them."—Mrs. J. H. Fawcett, 8 Beach St.

Your health is most important to you. It's easily improved. Just ask your nearest druggist for this Prescription of Dr. Pierce's in tablet or liquid form.

Write Dr. Pierce, President Invalids' Hotel, Buffalo, N. Y., if you want free medical advice.

W. N. U. 1422

## Important Changes In Taxation Announced In Budget Speech

Ottawa.—Not a seat was vacant in the House when Hon. W. S. Fielding arose to present the first budget of the present administration, but his sixteenth as a Minister of Finance. When Mr. Fielding last made a budget statement, 11 years ago, his story was one of a bounding prosperity. Today (as an aftermath of war), it was because of the gravity of the financial situation that he stressed the necessity of making his budget balance. He had reductions to announce in custom's duties, but he had likewise some sweeping increases in taxation. He pleaded for the "deep and earnest need" of economy; he urged that Members of Parliament and the people alike should pass a self-denying ordinance. "I would not, however," Mr. Fielding hastened to add, "have anyone draw the impression that I take a gloomy view of the situation. There is, happily, a brighter side."

For the financial year 1922-23, the Finance Minister summarized the financial situation in this wise:

Estimated revenue, \$332,629,000; estimated expenditure, \$466,983,359.

The following gives the budget in brief:

Tariff reduction combined with increases in special taxes:

British preference increased on many items.

Few reductions on imports from United States.

Acts of last session regarding consular certificates, valuation for duties, and limiting depreciation on foreign exchange to 50 per cent., are all repealed.

Goods Marking Act repealed, but marking made permissive at option of Government.

Sales tax increased by 50 per cent.

Tax of 1 per cent. imposed on bank circulation, in addition to income tax.

Five per cent. tax on premiums paid to unlicensed insurance companies.

Tax on cheques raised to 2 cents on each \$50.

Tax on telegrams raised to 5 cents.

Taxes on tobacco cigars and cigarettes revised so as to relieve cheaper brands and increased rates on more expensive.

Ale, beer, porter, etc., to pay tax of 15c per gallon.

Soft drinks taxed 10c a gallon.

Additional tax of 5 per cent. on automobiles up to \$1,200 in value; above that, 10 per cent.

Confectionary to pay tax of five per cent.

Tax reduced on matches in small boxes.

Customs rates on agricultural implements reduced by from 2½ to 5 per cent.

Increase in British preference on sugar.

Duties on cocoa and chocolate reduced.

Reduction of 2½ per cent. in duties on woollen clothing.

Collars and cuffs, reduction of 5 per cent.

Boots and shoes, duty reduced 2½ per cent.

Reduction in duty on gasoline for fishing vessels, and on other fishermen's supplies.

Reduction of 2½ per cent. in British preference rates on cotton yarns and cotton fabrics, also on knitting goods, linen, or cotton clothing.

British "movie" films to come in at lower rate.

Machinery for saw mills reduced under the general tariff.

Excise tax of 49 cents imposed on beet sugar.

Parts of pumps and iron tubing come in at reduced duties for mining industry.

Iron tubing and tools reduced for plumbing.

Window shades reduced 2½ per cent., if British.

Import of many birds added to prohibited list.

Drawback schedule revised.

**ECZEMA** You are not experimenting when you use Dr. Chase's Ointment for Eczema and Skin Irritations. It relieves at once and gradually heals the skin. Sample box Dr. Chase's Ointment free if you mention this paper and send 2c. stamp for postage. 6c. a box; all dealers or Edmondson, Bates & Co., Limited, Toronto.

W. N. U. 1422

### Has Faith in Canada

Duke of Devonshire is Complimentary to People of Dominion

London.—The Canadian Club of Great Britain on Empire Day entertained the Duke of Devonshire, ex-Governor-General of Canada, at a luncheon which was attended by a good many Canadians and ex-Canadians now residing or visiting in London. There were present also Ambassador Harvey of the United States; Sir Hamar Greenwood, Secretary for Ireland; Hon. E. Shortt, Home Secretary; and Col. L. C. Amery, Parliamentary Secretary for the Board of Admiralty.

Sir George Brown presided in the absence of Hon. P. C. Larkin, who is in Geneva.

Responding to the toast in his honor, the Duke said that even the ten months that had passed since he resumed his residence in England had not robbed him of the optimism acquired in Canada. It was easy enough to talk about Canada's natural resources but the marvellous development of the country was equally due to the character of the people and its institutions.

### Temperance and Morals

Liquor Question Will Be Issue in Quebec Elections

Montreal.—"There will certainly be elections. I cannot say just when, I hope they will come soon, but I certainly don't think they will be held either in June or July."

This was the feature of the speech made by Hon. J. L. Perron Provincial Minister of Roads, addressing the members of L'Association de la Parole Libérale here. He added: "Whether the sale of liquor in this province is to continue under Government control or go back to individual vendors as under the old license system, is in my opinion the fundamental question and it is on this question first and foremost that elections will be held in this province."

M. Perron declared that alcohol in North America was a necessity.

"We must have it, for if we did not there would be worse things. The revenue part, after all, is only a secondary matter. It is a question of temperance and morals."

### Serious Position Of British Aviation

France Will Have 226 Squadrons Against Britain's 12

London.—Major W. T. Blake, of the Royal Air Force, and Captain Norman MacMillan, who on the death of Sir Ross Smith took over the latter's plan to fly around the world, were entertained at luncheon in London by the Daily News. Lord Montagu, of Beauchamp, presiding. It was announced that a private individual was financing the entire expedition. Lord Montagu speaking of the serious position of British aviation said the end of 1922 would find the French with 226 air squadrons compared with Great Britain's 12.

### English Meat Traders

#### Ask Embargo Removal

Say Canadian Cattle Only Remedy for Livestock Shortage

London.—"We are greatly concerned over the big shortage of livestock in the country and the high price of English meat. The only remedy is re-introduction of Canadian cattle." Thus begins the anti-embargo resolution of the National Federation of Meat Traders. The Daily Express, in commenting on the embargo controversy, supposes Sir Arthur Griffith-Boscawen and other ministers prefer home-killed meat themselves, so why imagine that other people prefer the frozen variety.

Ottawa.—Practically without discussion the House voted \$1,199,000 for the maintenance of fisheries; \$114,810 for steamboat inspection; \$262,000 for meteorological service; and \$90,000 for the Sorrel shipyard.

#### Musical Festival

Splendor of Massed Choral Singing Subject of Comment

Regina.—Not less than 3,500 people gathered at the Stadium on Wednesday evening and in point of attendance the day may be said to have been a complete success in spite of the holiday rather than because of it. For trains both into Regina and out carried capacity crowds, and though hundreds sought rural refuge from paved streets, hundreds of others came in to attend the festival—a proportion of them to take part.

The evening programme was given over to the final performances of Class A brass bands, choral societies and military bands. This was followed by the performance by the massed choral societies—an aggregation of something like 1,000 singers—of Rachmaninoff's "Cherubim Song" under the baton of Francis Stevenson, conductor of the Orpheus Choral Society of Saskatoon.

Saskatoon carried off the most coveted honors of the 1922 musical festival, when the Orpheus Society won the shield in the choral society contest with 174 points. The Moose Jaw Choral Society, conducted by W. H. Maxwell, came second with 170. The Regina Choral Society, conducted by F. Laubach, was given third place with 163 points; and Prince Albert Choral Society, conducted by Madame J. E. Morrier, was fourth, with 160½ points.

The splendor of the massed choral singing can best be imagined from the statement of T. Tertius Noble, who has shown no inclination to be over-liberal of praise, but who said of this culminating production, "This is a festival chorus most undoubtedly and it is made up of magnificent material."

The United States is the world's largest consumer of crude cocoa.

### TIRED AND RUN DOWN

Lydia E. Pinkham's Vegetable Compound Helped Where Other Medicines Failed

Vancouver, B. C.—"I took Lydia E. Pinkham's Vegetable Compound because I was tired and run down. I had headaches and no appetite and was troubled for two years with sleeplessness. I tried many medicines but nothing did me any real good. While I was living in Washington I was recommended by a friend to take the Vegetable Compound. I am stronger and feel fine since then and am able to do my housework. I am willing for you to use these facts as a testimonial."

Mrs. J. C. GREAVES, 771 Hornby St., Vancouver, British Columbia.

Many women keep about their work when it is a great effort because the work must be done. Lydia E. Pinkham's Vegetable Compound has brought relief to thousands of tired housewives by removing the troubles which cause annoying symptoms.

If you are suffering from nervousness, headache and backache, pains in right or left side, tired and run-down feelings, take Lydia E. Pinkham's Vegetable Compound.

Just bear in mind this medicine has been used by women for nearly fifty years. That is a long record of service, and stands upon the foundation of merit.

## Railroad Freight Rates In United States Are Reduced Ten Per Cent.

Washington.—Railroad freight rates in the United States will be reduced on July 1 by amounts equal to 10 per cent. of their present levels, under a decision of the interstate commerce commission.

Practically all classes and commodities of traffic are affected by the decision which marked the conclusion of the investigation begun last autumn by the commission, on its own initiative into the reasonableness of existing freight levels.

The cut in freight rates was fixed by the commission at 14 per cent. in eastern territory; 13½ per cent. in western territory, and 12½ per cent. in the southern and mountain Pacific territories.

The commission, in ordering the decreases—which are on a horizontal basis—held that the nation's railroads are entitled to earn 5½ per cent. on the value of their property rather than the approximate six per cent. fixed as a reasonable return in the Transportation Act of 1921.

Agricultural products in all sections of the country outside of New England, livestock and western grain and grain products are the chief

commodities excluded from the reduction, these comprising the freight classifications upon which reductions have been recently put into effect.

Passenger charges and Pullman fares also are unchanged by today's decision.

Though a divergent view within the commission was indicated by several supplemental concurring or dissenting opinions, the full weight of the commission appeared to be thrown behind the statement made in majority and controlling opinion that a general reduction in the rate level as substantial as the conditions of the carriers will permit will tend to stabilize the conditions under which commerce and industry are carried on, consequent fuller assurance to carriers of realizing a fair return.

The great reductions in freight rates are expected to have an important bearing on importations from Canada and elsewhere. The lowering of freights, as viewed here, will to some extent increase imports from Canada which have had to encounter not only tariff duties but such high freight charges as to greatly restrict markets.

### Inefficient Sea Power

London Telegraph Deplores Lack of Dominion Participation in Naval Matters

London.—The Daily Telegraph, in an editorial dealing with the Empire's naval position, asks what has happened regarding dominion participation in pursuance of the co-operation policies between Britain and the dominions as outlined at the meeting of premiers.

Supplying the answer, it says: "Nothing, and less than nothing." The Telegraph remarks that the baby navies of Australia and Canada will, in a few months, to all intents and purposes, cease to exist.

The newspaper continues:

"In the view of a legitimate cry for economy in this country our squadrons are being further cut down in European waters. The time is not far distant when we shall be an inefficient power by sea and the Washington standard will seemingly be a mere scrap of paper. Is that a small matter to Canada looking out over the Atlantic and the Pacific and does it suggest no reflection to Australia, New Zealand and South Africa? By joint effort they could at least see that the Washington standard accepted by Great Britain and the dominions is maintained."

### Fatal Canoe Accident

Two Men Drown When Canoe Overturns in Rapids

Winnipeg.—Overturning of a canoe containing three members of the forestry service, on Winnipeg River, above Manitou Rapids, resulted in the drowning of Fred French, a first year student in the forestry school, University of Toronto, and Albert Bale, of Winnipeg, a cook, according to word received here.

Another university student, N. M. Kensit, succeeded in reaching shore after making a valiant effort to rescue French. He held him until he realized they both would be drawn over the rapids, when he was forced to relinquish his hold. French and Bale were swept over the rapids.

### Post Office Will Issue Licenses

Ottawa.—After June 1, radio receiving licenses will be issued through the post office department of larger cities as well as through the radio branch of the naval service department. Hitherto all licenses were issued through the latter department. An earlier report that the issuing of the licenses will be turned over to the postal department is incorrect. The charge is \$1 annually.

### German War Material Destroyed

Berlin.—Up to March 1, Germany had destroyed 5,855,000 rifles and carbines, 104,000 machine guns, 35,700,000 loaded shells and mines, 14,800,000 grenades, 13,383 airplanes and 21,045 airplane engines, according to official figures.

### Many Soldiers Have Abandoned Farms

Hon. Charles Stewart Says Number Totals Over Two Thousand

Ottawa.—Hon. Charles Stewart, Minister of Immigration, stated in the House of Commons that there had been 2,352 abandonments of farms by soldier settlers.

The total amount of public monies invested in the abandoned farms was \$9,885,535. The amount invested in lands and buildings was \$1,651,237. The return received was \$1,852,334. The amount invested in stock and equipment was \$539,853, and the return received from the sale of this stock and equipment \$376,466.

## CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

### Fruit Crops Damaged

Victoria.—Frost has damaged fruit crops on Vancouver Island and the Gulf Islands, estimated at from 30 to 50 per cent. of the early bloom, according to the Government report. In some cases the damage was a good deal heavier, the report says.

DR. MINARD, Inventor of the Celebrated MINARD'S LINIMENT

Try a Bottle To-day

## Sir Harry Lauder Refers To Intense Loyalty He Found In Canada

Sir Harry Lauder was the principal guest of the Rotary Club at luncheon at the Hotel Cecil. About 400 Rotarians, many of whom were from the provinces and from abroad, were present to welcome the Scottish comedian after his tour of 22 weeks in America and Canada.

Mr. R. S. A. Housden, who presided, said that Sir Harry was one of the leading exponents of the doctrine of unselfishness—of service to the community—that went by the name of Rotary, which had now entered 30 countries, and had 100,000 members. Rotary had probed its way into every profession, trade and calling; it was international and not deterred by boundary or language. (Cheers.)

Sir Harry Lauder, who wore a kilt, was received with loud cheers, and, after drinking the health of the company, he sang a song, "Once every week, every week in the year," the refrain of which was "Having a smoke, cracking a joke with your pals in the Rotary." When the laughter and applause had subsided, Sir Harry Lauder said that they wanted the Rotary movement to spread its tentacles in every direction; they were out for friendship and not battleships (laughter). In Canada there was a loyalty that was wonderful, considering the distance from these shores and the proximity of the great Republic of America, where there was a reciprocity of ideas and a similarity of customs in national life. Yet between the United States and Canada there was a comradeship—a true comradeship—that constituted a symbol of friendship that was hard to beat. Who was there who did not believe that our Empire and the United States, standing together in confidence and regard could carry the world with them in the realization of its noblest dreams? (Cheers.)

The appointment of Lord Byng of Vimy as Governor-General of Canada had been marked by much success. His appointment was an experiment that was fraught with great danger, for he was a soldier, pure and simple, straight from the battlefield, who now filled that high post. The war reaction was felt in Canada just as elsewhere; Lord Byng had proved himself a man of more than ordinary agreeableness and power, and Canada was showing her appreciation of him. (Cheers.)

When he was in America he had the good fortune to meet informally, and very intimately, President Harding, and he formed a very high opinion of him as a sincere and sagacious gentleman. His countrymen had unbounded confidence in his courage and his capacity. He would have much like to see President Harding and Mr. Lloyd George on the golf course. (Laughter.) He would make bold to say, after the match was over, that the peace of the world would be solved. (Laughter.) President Harding was a great, big, simple, kindly, Christian man, and that was what we were wanting today. (Cheers.) The name and fame of the work of Lloyd George in the United States and Canada was in such grateful esteem that he believed it amounted to hero-worship. (Cheers.)

Sir Harry Lauder concluded by singing his song, "Singing is a thing to make you cheery." In one of the verses he introduced the Prince of Wales, and on finishing he caused much laughter by turning to Wing-Commander Louis Greig and remarking audibly, "Don't ye be gaun and tellin' the Duke of York."

Mr. G. N. Barnes, M.P., thanking Sir Harry Lauder, spoke of him as being even more than a national institution—he was an international figure. The London Times.

**Encouraging Settlers With Capital**  
Many inquiries are being received by the Publicity Commissioner of the Alberta Government from intending settlers in Alberta, chiefly from Middle Western States. Interest is displayed in all parts of the province. The Government is not encouraging wholesale immigration, but offers encouragement to those who have sufficient capital to establish themselves.

### For the Land Seeker

Available Lands for Homesteads are Now Mapped Out

The total number of quarter-sections of Crown land still available in each township is shown on the 1921 edition of a land map of Manitoba, Saskatchewan and Alberta, recently issued by the Department of the Interior. Likewise the number of quarter-sections unoccupied and uncultivated lands held in private ownership and purchasable from the non-resident owner. This latter feature, showing at a glance what lands are for sale, should prove of great service to the land seeker. Supplementary to the map, the department has had compiled for each district, lists containing information as to the price asked for the land, terms of sale, nature of soil, acreage fit for cultivation, value of buildings and other matters helpful to the prospective purchaser. With such information in his possession the intending settler may then negotiate with the owner of the land.

Another important feature of the map is the railway belt information which has been shown in three different shades of color on each side of all railway lines, to signify land within 5, 10 or 15 miles of a railway. Among other details shown are the Dominion parks, the forest reserves, land districts and agencies, surveyed townships, and railway information to date. A copy of the map, also a list of the unoccupied lands for sale in any particular district may be obtained free of charge upon application to the Natural Resources Intelligence Branch, Department of the Interior, Ottawa.

### Alberta Farmers Optimistic Over Crop

Southern Alberta farmers plan a heavy acreage of grain this season, as shown by the crop report compiled by the Lethbridge division of the Canadian Pacific Railway. Wheat alone, according to indications, will run to over a million acres. Great optimism prevails over the prospect in view of excellent moisture conditions.

### Suction Dredge for Recovering Gold

It is expected that a powerful suction dredge will be in operation on the Upper Peace River at Hudson Hope next summer for the recovery of gold from the gravel and alluvial deposits along the river. The company, which is composed of Edmonton men, is now sending in material for the construction of the dredge.

## Demonstrated Value Of Cow Testing

Dominion Dairy Commission Shows What May Be Accomplished

The value of cow testing and recording as a guide in feeding for milk yield and in weeding out low producing cows from the herd is well illustrated by the officer in charge of the work under the Dominion Dairy Commission. In his report on the subject he gives instances of increase on annual revenue which illustrate what may be accomplished. In four years, he says, by adoption of the system, the Comox Association in British Columbia increased the average yield per cow by 1,400 lbs. milk and 70 lbs. fat. This was in the period from 1914 to 1918, and in the latter year the increase meant at least fifty dollars more per cow than was obtained in 1914. In a locality in Ontario where the system has been followed for a term of years, the production of one herd, including a number of grade cows, has been increased from 5,400 lbs. milk to nearly 12,000 lbs. per cow. The average of 57 cows finishing a full year's testing in 1920 was 8,866 lbs. milk and 313.4 lbs. fat. The statement is made that in Denmark twenty per cent. of the cows are tested; that in the United States there are 452 associations operating with an average of 425 cows tested in each association, or over 272,000 cows in all, and that in Canada, where the method pursued is on different lines, 3,400 farmers are so engaged. The numbers everywhere are increasing rapidly. Co-operation is recommended as the best method to follow in operating the system of cow testing, and the hiring of competent men to do the work.

### Mostly Farmers.

Many Soldier Settlers Were Farm Laborers Before Enlistment

Major Barnett, chairman of the Soldier Settlement Board, giving evidence before the pensions committee of the House, said that of soldier settlers on the land to whom assistance had been given, there would be only about five per cent. with no previous agricultural experience. Fifty per cent., however, were not on the land at the time of enlistment. In many cases men who were farm laborers before enlistment had taken up land for themselves. Payments in arrears at the end of the last fiscal year of the board were \$1,203,000 out of \$2,296,000 due. However, the board had also received over \$1,000,000 in pre-payments.

Total value of the loans actually made was \$87,740,000. The amount had been advanced by the finance department. The board had already repaid to the Finance Department \$11,885,000.

## The Farm Garden Is A Very Important Factor In Economy Of The Home

### An Engineering Mystery

Iron Bar With Perforation Through Centre Stronger Than a Solid Bar

It seems impossible that an iron bar with a hole through the centre should be stronger than a solid bar of the same diameter, but this has actually been proved to be the case. A British firm has developed a very ingenious process of making what it calls a hollow cored bar with this increase of strength. The hollow core is really a small hole which extends from end to end of the bar. Obviously it would be a very costly business to bore a hole through the bar, and in consequence this firm has developed a clever way of making the bar hollow without drilling. The mass of metal from which the bar is drawn is drilled in the first case, and the hole is packed tight with a special composition. The ends of the hole are subsequently sealed by a patented process of welding. When the piece of metal is rolled in the mill into a long bar the packing stretches with the metal and preserves the continuity of the hole. One of the most important applications of this hollow cored bar is for mining drills where the hole is used for a current of air or a jet of water to cool the cutting edge. Where water is used it converts the dust made by the tool into slush before it can rise and be breathed by the miner. Thanks to this invention it is probably that the liability of miners to tuberculous trouble will be greatly minimized. Hollow cored bars are also being used for a great variety of purposes in motor car construction and elsewhere. Arrangements have recently been made for the production of these hollow bars on a much larger scale than formerly.

### Alpine Club Meets at Banff

The annual summer camp of the Alpine Club of Canada will be held in the Palliser Pass in the Canadian Rocky Mountains, three days pack journey or about 60 miles from the railroad at Banff, from July 27th to August 7th. About two hundred members of the club from all over Canada and the United States are expected to meet at Banff. Several innovations in difficult mountain scaling will be introduced this summer, and the feasibility of scaling Mount Logan, the highest peak in North America, will be discussed and tentative arrangements made for the feat.

### Not Exaggerated

Pitiable Conditions Among the Starving People of Russia

That the reports of the pitiable conditions among the starving people of the Volga provinces in Russia have not been exaggerated is evident from statements made in Toronto by Professor Atkinson of Melbourne, Australia, who recently visited these portions of Russia.

Professor Atkinson said: "You cannot emerge from such an absolute inferno of human agony and feel that you have any individual rights whatever in the face of this, the most appalling disaster that history has ever known."

Describing the look on a starving child's face as it reached out to get the bread, and was looking at it with the most dreadful look I ever saw in all my life. The whole tragedy of Russia was summed up in the expression of that child's face."

Speaking on the question of responsibility for these conditions, Professor Atkinson said: "It is no use blaming the Soviet or anybody else in Russia if you want to do anything from a humanitarian standpoint. The Soviet is doing its best to help the foreign organizations to deliver food and he could assure them that all the food got to the children—every bit of it."

### Gold in Northland

Prospects for gold in the deltas and banks of the waterways of the Northland are good, according to Carl Lungen and his party of four who have prospected the western tributaries of Great Bear Lake and the streams flowing into the Liard, immediately adjacent to the Mackenzie River. They have taken up claims on the Dahanlani. They claim to have washed an average of sixteen ounces a day for nearly a month.

## Canadian National Livestock Improvement Train

The above photo was taken a few days ago at one of the points visited by this train. At all stops keen interest has been taken by men, women and children who have turned out in large numbers.

The tour was a pronounced success. Those cooperating in the undertaking included Canadian National Railways, Livestock Branch of Dominion Department of Agriculture, Manitoba Agricultural College, Breed Associations (cattle) for Manitoba, Winnipeg Livestock Exchange and Winnipeg Packing Companies. The railway equipment supplied and operated by the Canadian National Railways, included

special lecture coaches, cars for the conveyance both of pure-bred bulls and of demonstration animals, and cars for livestock demonstration work.

**Livestock Demonstrations**—Demonstrations given as to the actual values of various classes of cattle and hogs to the stockyards.

**Women's Meetings**—One car was devoted to meetings for women. Motion pictures on bread making, canning, etc. Lectures and demonstrations.

**Boys' and Girls' Car**—One car was equipped for meetings with the boys and girls. Lectures and demonstrations, illustrated with pictures and lantern slides.

**Men's Lecture Car**—One car was provided for meetings of men on such topics as breeding, feeding and management of animals; the production of crops for feeding and market demands.

Manitoba-raised pure-bred bulls of various breeds were carried freight free from assembling points and offered for sale. Sales were made by representatives of the breeders. The train reached each stopping point early in the morning, and bulls were on sale all day. Every bull was tested for tuberculosis and no reactors were offered for sale. Only such bulls as were considered of suitable type were sent out. Every bull was sold as a breeder.

## The Liver Is the Road to Health

If the liver is right the whole system is better off. Carter's Little Liver Pills awaken your sluggish, clogged-up liver and relieve constipation, stomach trouble, inactive bowels, loss of appetite, sick headache and dizziness. Purely vegetable. You need them. Small Pill—Small Dose—Small Price.

### WORLD HAPPENINGS BRIEFLY TOLD

Thomas Draper, Petrolea, Ont., has leased 1,920 acres of tar sand property in Alberta from the Federal Government.

The Polish Diet has enacted a law requiring an annual vacation of two weeks with pay for all industrial workers.

The police commission has refused to revoke the order for the strict enforcement of the Lord's Day Act in Victoria.

A special despatch from Moscow announces the appointment of Leonik Krassin, Russian Bolshevik representative in London, as Soviet ambassador to Germany.

The ambassadors council has ordered the Bulgarian Government to proceed immediately with the disarmament of the Wrangel troops on Bulgarian territory and the dissolution of their military organizations.

Italy has agreed to restore to Germany for 800,000 lire all German property in Italy, seized during the war except some which has already been converted for public utility, says a despatch to the London Times from Rome.

The first Jewish municipal bond issue in history, amounting to £80,000, has been authorized by the Palestine Government for the township of Tel-Aviv, the self-contained Jewish municipality near Jaffa. The obligations are secured by taxation, the bonds being issued at 6 per cent., repayable in 20 years.

### Quick Work in Germany

Tree Being Transformed Into Newspaper Within a Single Day

Trees on which birds warbled their morning song are turned into newspaper print paper and sold as midday editions on the same day in certain towns of the Harz district, says the Papierfabrikant, the leading German papermakers' organ.

The exact time taken in the process is 3 hours 25 minutes. The trees were felled at 7.35 a.m.; pulped and turned into paper by 9.39, rushed in a motor truck two and one-half miles to the printing office and at 11 o'clock newspaper boys were crying the local sheet on the streets.

### CHILDHOOD INDIGESTION

Nothing is more common in childhood than indigestion. Nothing is more dangerous to proper growth, more weakening to the constitution or more likely to pave the way to dangerous disease. Fully nine-tenths of all the minor ills of childhood have their root in indigestion. There is no medicine for little ones to equal Baby's Own Tablets in relieving this trouble. They have proved of benefit in thousands of homes. Concerning them Mrs. Jos. Lunette, Immaculate Conception, Que., writes: "My baby was a great sufferer from indigestion, but the Tablets soon set her right and now I would not be without them." Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Miller's Worm Powders are the medicine for children who are found suffering from the ravages of worms. They immediately alter the stomachic conditions under which the worms subsist and drive them from the system, and, at the same time, they are tonical in their effect upon the digestive organs, restoring them to healthful operation and ensuring immunity from further disorders from such a cause.

As a vermicide an excellent preparation is Mother Graves' Worm Exterminator. It has saved the lives of countless children.

Eastern Syndicate Leases Oil Lands. Twenty-five hundred acres of land at Pouce Coupe have been secured under oil leases by an eastern syndicate, incorporated under the laws of Quebec. It is said that the syndicate is a close corporation, and that extensive development work will be undertaken during the coming season.

### Feathers, Fringe and a Bag to Match Milady's Chapeau!

Fringe! There is nothing new about fringes. It has been used in every way and in every place under the sartorial sun, but so firm a place has it won in our affections that we must have at least a bit of it on some garment in our wardrobe. On the overblouse of spring it lends an attractive finish to the bottom, as well as to the sleeves. It gives a suggestion of grace to whatever it embellishes.

And feathers! As elaboration their use dates back no further than the Garden of Eden, but Milady 1922 affects them as often as she possibly can and loves them just as dearly as did Eve.

Neither is there anything particularly novel in the matching of the hat and the bag, but it is a pleasing fancy and one which is revived annually when March goes out like a lamb.

### Earnings of Saskatchewan Telephones

The total net earnings of the Saskatchewan provincial telephones in 1921 was \$1,964,495. The total pole mileage of the provincial system is now 6,000, and the wire mileage 31,500.

MISS MARGUERITE K. O'LEARY, of Reading, Pa., who says she has gained eight pounds and can hardly find words to express her praise for Tanlac for the good the medicine did her.

"I am so happy over what Tanlac has done for me I can hardly find words to express my praise," said Miss Marguerite K. O'Leary, who lives with her parents at 1223 Chestnut St., Reading, Pa. "I wasn't exactly what would be called sick, but for a year I had been all run down and sometimes felt so weak and miserable I could hardly hold up my head. I was so nervous the telephone bell or a door closing would startle me so I would tremble like a leaf."

"I needed something to build me up and give me strength and energy, and that is exactly what Tanlac did. It gave me a fine appetite and improved my digestion. I gained eight pounds, the color came back to my face, my nerves became normal and I soon felt as well as I ever did in my life. It is simply wonderful that medicine could make such a big change in any one. My friends and neighbors are surprised when they see me now, and no wonder, for I look like a different person. Tanlac is grand and I never intend to miss a chance to say a good word about it."

Tanlac is sold by all good druggists.

### Soldier Settlers Increase Acreage

Last year's crop acreage put in by soldier settlers under the Soldier Settlement Board will be increased this year by more than 40,000 acres, according to the District Superintendent of the Board. The acreage filled last year by soldier settlers was 120,000 acres, and this year it is expected to exceed 160,000 acres.

No matter how deep-rooted the corn may be, it must yield to Holloway's Corn Remover if used as directed.

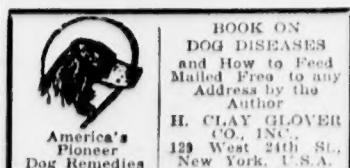

Telephones in the United States average one to every eight persons or every two families.

Australia is the world's largest producer of wool.

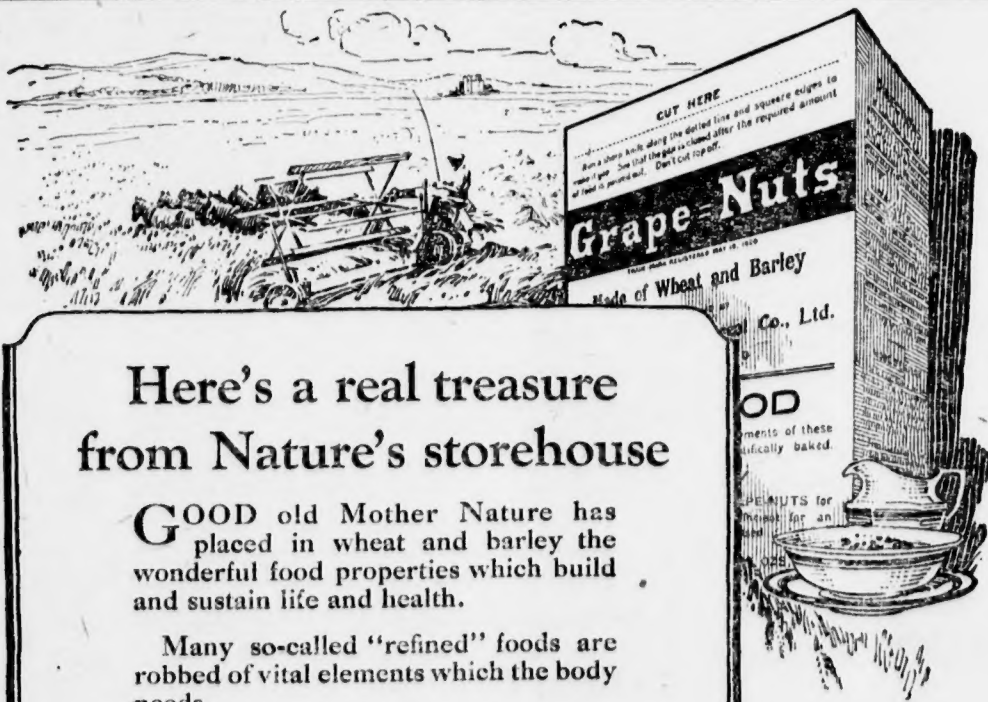

### MONEY ORDERS

Dominion Express Money Orders are on sale in five thousand offices throughout Canada.

## Here's a real treasure from Nature's storehouse

GOOD old Mother Nature has placed in wheat and barley the wonderful food properties which build and sustain life and health.

Many so-called "refined" foods are robbed of vital elements which the body needs.

Grape-Nuts—that famous wheat and barley food—brings you all the natural goodness of the grains in perfected form, with a crispness and flavor that charm the appetite.

You will find Grape-Nuts an ideal dish for breakfast or supper-time. Ready to serve from the package, with cream or good milk.

Order Grape-Nuts from your grocer today.

## Grape-Nuts—the Body Builder

Made by Canadian Postum Cereal Company, Limited Windsor, Ontario

"There's a Reason"

### A Few of the World's Lofty Peaks

Some of Nature's Most Gigantic Works Along Line of C.P.R.

The Canadian Pacific Rockies comprise some of Nature's most gigantic works. This can better be visualized when it is said that in the various mountain ranges that make up the Canadian Pacific Rockies, there are, according to Government measurement, no less than 593 mountain peaks over 5,000 feet in height above sea level. The Government list include only those peaks which bear names, and it does not profess to include the innumerable mountains that have not been named or measured. Of those listed there are 512 over 7,000 feet, 405 over 8,000 feet, 291 over 9,000 feet, 147 over 10,000 feet, 44 over 11,000 feet, 3 over 12,000 feet and 1 over 13,000 feet.

A great many of these majestic peaks are visible from the train, while others may be explored at leisure during the stay at the many beautiful resorts such as Banff, Lake Louise and Glacier.

Low summer tourist tickets are on sale daily to Vancouver, Victoria and other Pacific Coast points, which allow stop-over at any or all of the mountain resorts.

The trip through the Canadian Pacific Rockies to the Pacific Coast ranks among the finest in the world, with nature at her best during the summer months.

Four trans-continental trains each way daily will be operated by the Canadian Pacific Railway this summer through the Rockies, each equipped with open top observation cars. This service will include Canada's finest and fastest trans-continental train "The Trans-Canada Limited."

In certain parts of Russia the mail is carried by buffaloes. This animal is picked for the service because of his very flat feet, which enables him to travel where horses would sink.
